CHARMING LITTLE JANET BONARD, 4 year old, daughter of Mr. and Mrs. Hilton Bonard, was crowned the title of Little Miss Belle Glade, and was crowned by the queen of last year Sandra Vaughn. She is shown with cup and a bouquet which was presented her. The contest is sponsored each year by the Future Homemakers Club.

## Glades Soldier Killed In Viet Nam

Funeral services with full military honors for Tom Lee Boatwright, 21, were held Saturday, May 10th, at Port Mayaca Cemetery. Boatwright was a private first class in the U. S. Marine Corps and had been in Viet Nam for less than a month.

The mother of the soldier, Mrs. Mary Boatwright, of Clewiston, was advised by military authorities that Boatwright was killed by a sniper's bullet while on a reconnoitering post. Boatwright had enlisted in the Army in Oct.

Funeral arrangements were by the W. C. Taylor Funeral Home. The honor guard was furnished by members of the West Palm Beach Armed Services. The Belle Glade American Legion post was represented by one of their Legionnaires Mr. Richard Burns, Sr.

## United Front Mrs. Weaver Lends Support To Carpenter For House Seat

Mrs. Geraldine Weaver who missed the runoff election in a race for State senator presented a group of two who have pledged their support in the second primary to Milton O. Carpenter, the Glades' lone state senator. Carpenter said he will second in the three race won by Loy W. Johnson Jr. on May 10th to determine the Democratic nominee for the office in the November general election.

"I am genuinely pleased to have Mrs. Weaver endorse my candidacy," said Carpenter, a former mem-

ber of the County School Board. "With her vote and support of Glades citizens in the forthcoming battle to retain west county recognition in Tallahassee, we are sure to have as many people as possible on our team."

Mrs. Weaver received about 800 votes out of the Glades precincts with only 5,000 of the balance coming from the Glades area. It will be necessary for Carpenter to overcome a four thousand vote lead of his opponent by picking up at least two-thirds of Weavers vote.

## Burns Burns High — High Burns Burns

With the second primary May 24th less than two weeks away, the two candidates for the Glades seat of the House of Representatives are still neck and neck.

Both sides are doing their best to sway the all out effort of voters.

Those who supported candidate Scott Kelly, who was eliminated on May 10th, will be faced with a runoff against Burns by merely picking up some

thirteen percent of the vote in the Glades area. Thus the power of a large urban bloc voting demonstrated.

Governor Burns has apparently key supporters in the Glades area. He has high regard for Burns by having the aid of Bobby Kennedy and other Glades citizens.

Washington said, according to the Glades press, that Burns has some 25% of the voter registration statewide, voted about 20% of the total in the Glades area. It will be necessary for Burns to overcome a four thousand vote lead of his opponent by picking up some

months worked on this project and now have around \$100,000 accumulated to help furnish the interior. Mrs. Mary Orenigo, Chairman of the Board, and Richard Shoemaker were present at the meeting.

Other commissioners, including a representative of John and Carolyn Heim, the owners of the Belle Glade Housing Authority, Mr. Fritz Stein, were present.

## Library Plans Almost Complete

The Belle Glade City Commission, at their regular meeting Monday night heard architect Chester Cossi explain the proposed new municipal library plans which will cost approximately \$75,000 for construction. The building will be built on the south end of the park some 50 feet west of So. Main one story with one small street entrance. The room will be the rest of the property for general storage.

Overall the building will

cover somewhere between 1,000 and 1,200 square feet of space. Included is a multi purpose room which will

seat about 63 persons.

Rising building costs could affect the plans and the city manager may stay with estimated figures.

The structure is to be erected, if possible, by the end of the year.

### Higher Taxes Discussed By City Of South Bay

Higher 1968 real property taxes for South Bay citizens were discussed by City commissioners at Monday night's meeting, and decreasing city revenues also came in for serious discussion.

Most city income is the problem in South Bay as it is in most growing cities.

The city's tax base is

problematical, just as

most other cities are.

"It is a continuing

problem that we

have to raise the assessment value

from an estimated 70%

of cash value to 100% of cash value. This would

mean more money and

might let the Commissioners

lower the mill rate lev-

ies," Commissioner

Tommy O'Neal pointed out.

"I think the citizens

want the tax rates let's

have them vote on it," the Mayor

answered. Commissioner

## OPEN THE RICHES OF THE SEA

### UNTAPPED RESOURCES

Now that many of the mysteries of the universe are closer to solution through the space program, a comparable challenge for knowledge faces us in the depths of the ocean.

The combined government and private programs in ocean research total over \$15 billion dollars per year, a financial outlay one-third as large as the space program and growing at a more rapid rate.

Both the industry and Defense programs seek support. A prime example of the need by all concerned in the field, is the extensive programs for mapping as well as the development of resources.

We approve the legislative recommendation of Rep. Paul G. Rogers for the establishment of a National Commission on Oceanography. It would authorize the President to appoint a commission to investigate the current status of the U. S. in the field of oceanography and recommend a future course of action best geared to our national needs and development programs.

The commission would be composed of five persons from the field of industry, five from government, and five from universities and laboratories participating in oceanographic work.

It would be given two years to complete its assignment and submit a report to the President and Congress. It is hoped that the result will enable industry to proceed independently in those areas where it is best fitted, and to work with scientists and government in the attainment of greater knowledge and achievement in developing the oceans' resources for mankind.

### A CLARIFICATION

In recent weeks there has been a growing confusion as to whether or not my political plans have changed. Therefore, I think it desirable to make some clarification. Here is an excerpt from what I have written several months ago:

"I have in no way changed my position from that taken on January 6 of this year when I stated I would not be a candidate for reelection in 1968. I have made no speech, solicitation, taken no step of any nature since that date which was calculated in any way whatever to inject myself back into a candidacy for reelection in 1968, and furthermore I do not foresee any circumstances which would cause me to do so."

I support the cause of this growing confusion was an interview that I had with a very fine newspaperman from St. Augustine, Buddy Wilson.

Mr. Wilson asked me if there were any conditions under which I might reconsider my announcement to retire. I had been asked the same question at the recent news conference and had made the same answer which is as follows: "There are some circumstances which would cause me to do so, but the ones which would cause me to take another look at this whole matter, and that would be in the very slight likelihood that Senator Mike Mansfield should decide to retire as Majority Leader, and that Senator Russell Long of Louisiana, now Assistant to the Majority Leader and Chairman of the Finance Commit-

### Washington Report by Senator Spessard Holland

tee, should aspire to, and be elected Majority Leader. These unlikely events would make me, as the present ranking member of the Finance Committee, and de facto and probably Chairman of the Committee."

The Senate Committee is one of the most important in the United States Congress, handling all taxation, monetary, tariff, social security, and allied problems, and because Florida has not had a chairman of a committee of this stature, I would feel constrained to at least take another look at the situation."

So it is my purpose in this Newsletter to set the record straight, in fairness to every Floridian who may be interested in what my position was in this matter.

### AUTO SAFETY LEGISLATION

Shortly before the Easter recess, the Senate voted unanimously in favor of legislation calling for minimum

standards of tire safety. Under the bill, the Commerce Department will develop interim standards before January 3, 1967 and revised final standards before January 31, 1969.

This is probably the first of several pieces of legislation which will be adopted to make safer cars. While the bigger factor in accidents is still the person behind the wheel, nevertheless we must do all in our power to make cars as safe as is realistically possible.

### MEDICARE EXTENSION

The deadline for signing up for the voluntary supplemental Medicare benefits program has now been extended to May 31. As Chairman of the Senate Special Committee on Aging, I was pleased that the Senate Finance Committee, of which I am also a member, did not wait for a Presidential recommendation but cleared a bill one day prior to the original deadline date, March 31.

### SHORT AND SWEET

Don't be afraid to use what talents you possess; the woods would be very silent if no birds sang except those who sang best.

One butcher says he prefers to wait on newlyweds houseswives — they don't remember what meat prices used to be.

Not found under a windshield wiper: "I have just smashed into your car. The people who saw the accident are watching me. They think I am writing down my name and address. They are wrong."

The proud owner of a factory was showing his friend around. "How many people work here?" the friend asked. "Ed say about half," the owner replied.

### Uncle Dan From Doolie Says:

#### DEAR MISTER EDITOR:

In the papers where the U. S. Defense Department has come out with a new survey showing 25 per cent of all Americans was spending more time with their families. Furthermore, the place said the government was setting up a agency from the Office of Economic Opportunity to help families of retired and disabled to keep their family budget balanced.

What we go here, Mister Editor, is to go home to teach a dog how to swim.

One hundred per cent of the Government lives higher than its budget. The budget is 20 per cent of the people that spends more than they was making had ought to sit a medal for the year.

For example, I heard a fellow say once that if we wanted to make sure crime didn't pay, we ought to let the Government run it.

I was reading where one Congressman was complaining that the difference between a deficit of strength and a deficit of weakness, it ain't hard to figure, but the deficit of strength must be like the 1 in the law in the papers where you could borrow money from the Government to complete out of debt. And a deficit of weakness must be where you borrow more than you pay.

The Government has got out a book called "U. S. Government Benefits," and it costs \$2.00. We the Government helps us. I was telling this to the fellers at the

country store Saturday night and Ed Dooley claimed that he was making out of the place that we must have 3,000 ways by now. He reported he had saw in the papers where the Illinois State Auditor said one state was getting \$200,000 a year from the Office of Economic Opportunity to help families of retired and disabled to keep their family budget balanced.

### WORTH TALKING ABOUT

It is worth the time and effort to buckle seat belts for a short trip to the neighborhood grocery?

That's like asking, according to Portland, Oregon, Traffic Safety Council.

If it's worth holding your

breath for a short dive under water. The Commission pointed out that most fatal accidents occur on short trips fairly close to home.

### PORTLAND, ORE., DAILY JOURNAL OF COMMERCE:

"For all practical purposes, we have reached a point where there is no unemployment in the future, but at the present time there are unfilled openings for persons with many skills and knowledge in many fields. It may be that as long as present conditions continue there should be some adjustment to make better use of those persons who have retired . . . The skilled workers and executives who have become work-organized make plans for the time of retirement. Experience has shown that when that time arrives it brings with it a sense of dislocation and boredom which cannot replace that of usefulness and achievement."

PORT GIBSON, MISS., REVERBILLE: "It is not hard to say the reason some people are 'poverty stricken' is because they do not want to work. There is no use beating around the bush, some people are plain lazy, and some all they can get without any effort on their part. Certainly, help the real unfortunate, but the industrious do not have the obligation to care for society's dross. The Good Book says man shall live by the sweat of his brow, and we haven't read in the Bible where any Great Society has to take care of him."

Community growth is important. As our population

increases, so does the need for better stores and for a wider variety of services.

Growth seems to promote progress and progress seems to encourage local spending, to the benefit of all of us.

## Mrs. O'Connor Installed Iota Epsilon Chapter Pres.

Mrs. John O'Connor was installed as president of Iota Epsilon Chapter of the Soroptimist International of Mrs. Floyd Collingsworth and Mr. and Mrs. J. E. Jones director.

The new president, presented by James Chamberlain with a gavel pin, and past presidents' charms to express the chapter's appreciation, was installed during their first year of organization.

A business meeting was held following the installation of officers, and final plans for the Soroptimist May dance to be held this Saturday night, were discussed.

The Cultural Program entitled "Theater in Home" was given by Mrs. James Chamberlain. She used mounted pictures to show the wide variety of dramatics that are arranged to reflect the tastes of those who live there.

The next meeting will be May 23, at the home of Mrs. Terry Kirchman.

## New Editor Assigned To Bobcat Page

LOIS DENNARD

Lois Dennard, senior at Lake Shore High School has been assigned "Editor of the Bobcat Page" for the remainder of the school term.

Lois Dennard has been chosen to complete a task which Evelyn had worked so hard and faithfully on until her death on Saturday, April 30, 1966.

## Helpful Hints: Personal Care

Careful personal care is essential to your health and happiness. It will help you sleep well, then wake in time to eat a good breakfast and off for better times at school and later on a date. It will help you increase your self-respect, keep your friends and make new acquaintances.

Perhaps earlier in your school career you kept a health score card. Recall a few of the important things that were there: such as cleanliness, eating wisely, healthy sleep and rest, fun and exercises in the fresh air. A few minutes of personal attention to your morning and evening will get the habit formed so that personal cleanliness will become a part of you.

Every teen girl should strive for a healthy, tidy clean appearance. Good health is revealed by smooth clean skin, radiant face,

"And when the wind has cleared away—Whatever we pretend—The fact remains that each has lost a faithful friend."

Members of the Lake Shore Junior-Senior High Family were left stunned and grieved over the sudden death of Evelyn West, who was a senior.

Evelyn, born December 16, 1945 in Jasper, Florida, came to Belle Glade, Florida, at an early age with her parents, Mr. and Mrs. Charlie West, Sr. She enrolled at the present Oklawaha Elementary School and later entered Lake Shore Junior-Senior High.

EVELYN WEST

During her years at Lake Shore, Evelyn endeared herself in the hearts and minds of teachers as well as students.

## Reptile Assembly Held

A very educational and inspirational assembly program was held on Monday, May 2, 1966 sponsored by Mr. Chuck Nald, who is a reptile collector in the states.

Mr. Nald has his own reptile farm in Baraboo, Wisconsin where he devotes his time to raising snakes, turtles, spiders, and frogs.

Well groomed hands, glossy hair, comfortable feet, natural make-up and well kept clothes. Here are some things that will make your appearance a good one.

1. Skin-When it is scrupulously clean all over.

2. Facial Condition depends largely upon your overall health and cleanliness.

3. Hair-When it is kept soft and glossy, it is the result of cleanliness and a balanced diet.

4. Feet-When they're well cared for and comfortable. Last but not least, keep clean. To be healthy and comfortable you need to be at ease, with a feeling of poise and confidence. These tips will certainly add to your appearance.

Dr. S. J. Simmons

of American AGP

Dr. Samuel J. Simmons, 133 SW Avenue B has been elected to active membership in the American Academy of General Practice, a national organization of family doctors.

As a member of the AAGP, Dr. Simmons will be required to complete 100 hours of postgraduate medical study every three years. The program, unique among medical associations, is designed to help member physicians stay abreast of the latest scientific developments in medicine.

Founded in 1947, the AAGP is the country's second largest national medical association.

Increased traffic at Glades Airport has caused county commissioners to increase the length of the paved runway, County Commissioner Weaver announces.

Work is slated to begin on the paved runway addition of 600 feet of runway, which will give the airport a paved landing area 4,000 feet long. Cost of additional paving will be an estimated \$20,000.

According to the managers of the airport, Frank and Ben Belk, the total length of the runway which parallels the lake is 4,700 feet. The new addition will pave 4,000 feet of this runway, which is 75 feet wide.

With this improvement larger strengthened aircraft will be able to use the airport. When the remaining 700 feet is paved, the Glades airport will be able to ac-

commodate any aircraft that can reasonably be expected to land in this area. According to Commissioner Weaver, the current \$20,000 project is part of the \$95,000 which has been allocated to the airport by the county for this fiscal year.

## Smathers Thinks LBJ Should Run The Show

CONGRESS will be guilty of "frivolity" if it continues to spend more money than the President wants for, according to Senator George A. Smathers (D-Fla.).

It has been estimated that the Congress may add as much as \$3 billion to the federal budget if it continues a trend of appropriating more funds than were requested.

"I don't think we're being

## Mrs. J. Whitley Rites Set Today

Funeral services will be conducted today (Thursday) at 2 o'clock at a Jacksonville Funeral Home for Mrs. J. M. (Marjorie) Whitley daughter-in-law of Mrs. L. O. Parker of 1108 N. W. 16th St., Belle Glade.

Mrs. Whitley died Sunday at 7 o'clock at the Navy Hospital at Bethesda Maryland. Her husband Chief J. M. Whitley is retired after serving 20 years in the Navy.

Mrs. Whitley will be remembered as visiting here with Mrs. Parker on numerous occasions.

## Principals . . . May 13 Deadline

County School Super. Robert W. Fulton has requested principals at all 87 Palm Beach County schools to complete their expenditures to be charged against this year's budget, by May 14. Superintendent Fulton pointed in his letter to the schools that "it has been extremely difficult" in past years "to get all necessary receiving records for closing the books" and "the best time for the annual reports which must be made to the State Department of Education before August.

## Report Cards Will Be Out June 3rd

Elementary schools will submit final grade reports to the students on the last day of school, June 3, it is announced by Super. Robert W. Fulton. Junior and senior high schools will remain open through Friday, June 10. Advance notifications for summer school planning forms will be issued to all junior and senior high school students for each subject failed on or before the last day of school.

## Cattle Prices Remain Good

Prices remained good at Glades Livestock Market on Monday. Pete Clemens manager said. Slaughter cows and calves were 25 cents and other classes of slaughter cattle steady. Stocker cattle steady. Steers and heifers 50 cents higher other stocker cattle steady.

The 541 head of cattle at Monday's sale brought a total of \$57,533. 59 percent went to slaughter and 41 percent to stockers.

## Students Plan Trip To Miami Seaquarium

Preparations are being run for the yearly trip to the Miami Seaquarium by students at Roseland. Students from much of the Glades are planning on attending the annual outing in addition to Roseland pupils.

Sixth grader Henry Moses reports on the trip to the Norton Art Gallery exactly as it was in his own handwriting.

"We left Roseland at 9:15 a. m. Thursday, April 22. We were at the Art Gallery at 10:45 a. m. When we got there we were divide into four groups there were 14 in each group. The group leaders were Mrs. Holland, Mrs. Rogers, Mrs. McLean and Mrs. Leeland. There were many interesting

things at the Gallery. Pictures drawn by famous people such as Pablo Picasso, Matisse, Miro, Miro, and Red Nose Iresia. We looked at pictures from the 14-17 centuries. We didn't talk in the Gallery. We were very quiet to be as quiet as could be.

We went into see the Art Exhibits where some of our school and other schools pictures were shown. We went to a gas station there we bought cold drinks and sandwich. I really had a good time at the Art Gallery and would like to go again. The students go next year because it's really fun looking at pictures you have never seen before.

School lunch room manager Mrs. Julia McClain batch has returned to Roseland after an extended illness at home. During her absence the children were shared by Mrs. Annie McClain, Mrs. Helen Lovley, Mrs. Bobbie Jones, and Mrs. Louise Andrews. Mrs. Irma Jones is a substitute lunch room worker.

Vanessa Jones, Beverly Mims, and Linda Chastine have returned from Fort Lauderdale, Fla. where they were part in the annual school patrol conference and sightseeing around the nation's capital. They are now discussing the many places they visited and the things they saw while in Washington, D. C., from May 5-9.

## Margo Averill Elected Student Council Pres.

Very responsible when we keep adding large sums of money over and above the request of the Administration," Smathers said, "and students can only feed induction."

Speaking on his weekly television and radio broadcast, Smathers also commented on administration's failure to voluntary hold down profits and higher wage demands.

"The President has been remarkably successful so far," he said, "and I think the reason is that both management and labor do not want federal controls, with all the attendant hierarchy of administrators."

**MARGO AVERILL**  
Miss Margo Averill, daughter of Mr. and Mrs.

Giant E. Averill, 615 S. E. 2nd Street, Belle Glade, Florida, has been elected President of the Student Council of Dunbar College of Holy Cross, Washington, D. C. for the 1966-1967 academic year.

## Unbiased Martian Analysis Of Steadies

By J. I. Willis with E. Guzman

The other day, while strolling the cluttered corridors, I perceived two tiny green creatures perched directly above a couple of kids whom I know to be going steady. The creatures were when I immediately recognized as Martians were continuing in quiet but clear English.

I crept closer to the embraced couple and hid behind a bush so I could hear what the greenies were saying. They seemed to be making a study of the two lovers to take back to Mars. Sensing that my presence was desired by either party, I lay low catching every critical remark.

The first audible phrase I heard was from the creature on the right. "Left" I shall refer to as "Right." Naturally the one on the left was named "Left."

Right said "Notice the way which the human with the long hair clutches the hand of the one with the hairy face."

"Right" Left said, "also the manner in which the one with the long hair fondles the scrawny arms of her soon-to-be mate."

"I'm glad you observed that, Left," remarked Right. "I wonder what the significance of the shiny ornament which encircles the fourth appendage on the left hand of the smallest creature. We noticed that the big one possessed it upon her the other day in what we deemed as an act of crazed emotion."

"I'm not sure," squeaked Left, "Maybe it is a brand or sign of ownership."

"Yes but who owns who?" questioned Right. "Every time a creature approaches the couple, the member of the couple with like appearance to the stranger acts as if his ownership of property were being threatened by the intruder."

"How peculiar," Left agreed, "It seems as if the two have segregated themselves from all the other creatures."

"Good observation," said Right, "Make a note of when an older creature nears the specimens, the hands are unclutched and the dreamy look disappears from their eyes."

I followed the Martians around and discovered their next objects of study. I will report in further papers to their comments and unbiased analysis about them.

## Last Minute Rush, Teachers?

By J. I. Willis and Eddie Guzman

Why do teachers wait until the last minute?

I've heard a teacher say, "You students wait till the last minute to do your work" one time I've heard it a thousand. Now, I would like to ask a good number of teachers the same question. Why do teachers cover about half a book the first five weeks then pile literally mountains of work on students the last six weeks because of their own lack of planning?

Many students like myself have worked hard enough since beginning high school to have decent grades. Now, in many of their classes the teacher, finding half a book not covered, have started that proverbial six week charge to finish that book.

It isn't so rough to cover a book in six equal chunks. But to cover a half a book in six weeks when it has taken five weeks to cover the other half is not only unfair but is ridiculous.

Come on teachers why do you wait until the last minute?

## Give Yourself A Present

By Libby White

To be a friend and to know you have a friend is to conquer loneliness. I'm sure that all people like this are not alone and then have experienced the terrible pain of loneliness at some time. The feeling of being alone or not having anyone to understand or care about us is a feeling that is impossible to describe. Without a friend, we have no one to talk to and to do things just isn't fun it could be. Our need for friendship is quite natural because it is one of the very essentials upon which life is founded. Each of us needs a friend!

The question is: How do we go about acquiring a friend? The first step is to be a friend to others and making friends takes care of itself. Next we should close our eyes to the faults

of others and open them to our own. Just remember that the people make mistakes now and then and we should be tolerant, understanding and forgiving.

To have true friends is not a matter of chance! We are not destined to be a friend and how to win the friendship of others. The art of friendship is a life-time accomplishment and can be achieved in one day.

Now, we can start today by offering our friendship to others. By doing this, we will win many friends, have many more friends, and be rid of loneliness as well.

So, go out and find a wonderful asset and as Robert Louis Stevenson said, "A friend is a present you give yourself."

## Rogers Advocates "Aquaculture" In Sea Colleges

Representative Paul Rogers testified before the Senate Special Subcommittee on Sea Grant Colleges today to urge approval of a bill to set up such colleges.

Rogers, a veteran advocate of more ocean exploration, told the Senators, "the bill is necessary if the U. S. is going to enter the 'wet space age'." He said, "Russia is now in the lead in ocean exploration and in January, told the Senate's Subcommittee that the Soviets now have up to 9,000 people working full time in the oceans, whereas the U. S. can claim only 3,000 full time oceanographers and marine

technicians, and that U. S. personnel are increasing at 10% per year while Russia's marine science man power is growing at about 15% per year." He pointed out that the Soviets have assigned high national priority to sea probes, while the U. S. has been lagging.

The Senate bill would require that a portion of U. S. taxes collected from sales of minerals such as oil,

found offshore be set aside for grants to universities & programs for ocean science programs.

He referred to the concept of land grant colleges enacted in 1862 for the development of agriculture, and related

technology.

"We need grant colleges to do grant work," he said.

"Every other fish in the

Congressman Rogers pointed out that more dollar benefits can be found in the sea than in land thus far

found in ocean sport.

He said that the U. S. fishing

industry could catch 5-6

times more fish than it gets now if the proper

methods were developed.

He also noted that the U. S. imports more than

half its fish products.

"Wholesale neglect beats the

man in the sea," he said.

Rogers said that sea grant

colleges could be a factor

in training underwater

technicians.

The Congressman mentioned

American trying pan is imported," he said. "If we made a science out of fish in like the Soviets have done, we would have a

lot more to offer to the U. S. markets and export fish to hungry and growing populations overseas as well."

Rogers also cited a 1,000

sq. ft. of pavement of

the Florida-Georgia State

line. Vital in making steel,

Rogers said that sea grant

colleges could be a factor

in training underwater

technicians.

# —Who's Who In The Glades—

This section dealing with outstanding citizens of the Glades area is an attempt to set in print the position these citizens occupy in the eyes of their neighbors. No one wrote of himself in this section. The material was gathered by Bob and Bill Bullard as they found conditions—

## Frank Anderson

All service stations look more or less alike, just as the \$20.00 zircon resembles the \$2000.00 diamond, so just as the expert jeweler would say it's pleasure to point out the difference, it is a pleasure to bring to your attention Anderson's Gulf Service Station at 709 N. W. 16, under the personal management of Mr. Frank Anderson.

Here the difference is the "red carpet treatment." Although featuring the finest Gulf products, a good service station, the latest tune-up equipment with good men to operate it, Frank has added the diamond difference in every extra free service and a pleasurable reception for each consumer. This policy has built good will for his station and has done much in the way of building and public relations for Belle Glade, very important item with the tourist trade.

We join with Mr. Anderson many customers in saying "Congratulations, you have done a fine job."

## Milton Carpenter

People of this area are for-

tunate to have an insurance agency in their midst with whom they can deal with confidence, and company records will prove. Milton Carpenter at 141 S. E. Ave. C. has been a friend to many in the Glades. His background proves that he is equipped for a long career rather than for quick sales and is as interested in future business as in today's business. He is in the Glades and has spent all his working life here in the insurance business. His business policy has made him known as an upstanding and upright citizen. His loyalty and attitude toward this section's future has made him known as a man willing to give to, as well as earn a living from, the community.

He spent 5 years serving the county as an elected member of the Board of Trustees and County School Board.

With insurance the most widely used form of financial protection, it is most important for a city to have a firm office. Carpenter is a well known instead of a fast talking saleshend, and Mr. Carpenter more than fulfills his obligations to the Glades.

## Frances

### Kirchman

Belle Glade has in its midst a floral designer whose skill and craftsmanship would do credit to the finest flower shop in the state. Mrs. Karen Kirchman of Kirchman Florist at 309 S. E. Ave. P. has much experience in this field and this, combined with her natural ability and a life time in the flower business, has made her a success. People desiring the very finest in floral designing have been quick to realize that Mrs. Kirchman could please the most discriminating taste.

She takes a genuine pride in her work and insists that every order be let her inspect and examine with the customer. This and her policy of fair and competitive prices has made this business a success and a credit to the Glades.

Mrs. Kirchman has a sense of responsibility to her home community. She has never failed to do her part when the community has been asked for a civic project. We congratulate her for the excellence of her work and for being a good citizen.

## Herbert Carter

The Mr. Herbert Carter Electrical work is more than just a job and he is in the business because it's his profession. That's undoubtedly accounted for the fact that from Carter Electric at 408 S. E. Ave. E. customers receive personalized, expert service. Proof that all is well with the electrical in the Glades is the record he and Borden's Dairy have established, and we sincerely wish for them continued success.

A veteran of his trade, his experience dates back to the days when much of this work used to be guess work and this practical knowledge combined with his natural aptitude for the latest in all phases of Electrical Repair and Installation work has kept his business in the forefront even in today's competitive field.

He has many newcomers competing for a share of this huge business, it is gratifying to have a really competent and reliable man and Mr. Carter more than fulfills his responsibilities to his customers and by doing so can take his place among the good, reliable businesses who do so much for the overall prosperity of the Glades.

## John Stanley

A business that is operated cheerfully, honestly and efficiently is destined to succeed. John Stanley, the manager deserves a word of praise for his method of operation. The man we have spoken of most in mind is John Stanley, manager of John Stanley's Dairy, Inc., at 108 Ave. N. for years to come.

## Lifford

### Abernathy Billy Abernathy

It is the good fortune of the Glades area that it has been able to attract such a man as Mr. Abernathy of Abernathy Masonry Co. at 857 S. E. 1 St.

The Abernathys have done very much to contribute to the advancement of their business and therefore, for the area. They are a team that would be hard to top in their achievement in Masonry Work. They have devoted much personal time to the management of this business and their great personal knowledge of all types of Masonry Work has enabled them to overcome difficulties that would have discouraged less capable persons. Their business proves there's no substitute for experience, the efficiency of its operation proves its popularity in this section.

They are persistent and untiring boosters for this area and have shown unusual devotion to the interest of their community by active participation in civic enterprise.

## Robert Mace

### Chas Weekley Jr.

A good stable trade area with business leaders that are solid citizens is probably the principal factor in the security of a section and with business such as

W. E. & Mrs. Mace and Son, Inc. at South Bay under the capable supervision of Mr. Robert Mace and Mr. Charles Weekley Jr. The Glades area, is impreg-

nably undivided.

Belle Glade's growth has been due to a great extent to such business leaders as

Mr. and Mrs. Mace and

Weekley Jr. Their wisdom and energy will undoubtedly make the growth of the Old Dining Room adhere to the rapid growth of the area.

## Donald J. Flack

In this review of outstanding business in the Glades area we wish to call the attention of our readers to the well-known position which Mr. Donald J. ## Tropical Fruits Discussed At Club Meeting

Guest speaker at the South Bay Garden Club's meeting last Thursday, May 5th, was Mr. Norman Bezon, Assistant County Agriculture Agent from Weston.

Mr. Bezon spoke on "Tropical Fruits" at the Educational Building of the South Bay Baptist Church.

Mr. Bezon illustrated slides, and discussed the colored slides, and discussed the tropical fruits best suited to the Glades, and which were best when eaten raw, cooked, or made into jams, jellies, etc.

In addition to planting tropical fruit trees, Mr. Bezon stressed the importance of planting palm trees, which serve not only to relieve the monotony of the "Flat Lands" of Florida. The Washington Palm is well suited for this purpose, according to Mr. Bezon.

Following his lecture Mr. Bezon answered questions from club members. He stated that South Bay did not have a fire department because no leaders could be found, and that Associate County Agent John Causey should be advised of any person willing to work with H. C. Williams, Fire Chief.

President Leathem appointed Mrs. H. C. Willis to the Nominating Committee. Mrs. Willis chose Mrs. Dorothy Norman, Mrs. Dorothy Norman, as committee members to recommend the next year's slate of officers.

The annual Covered Dish Supper will be held at the South Bay Fire Department, June 11th. All members and their families are invited to attend the supper.

Following the June 11th regular meeting, the club will hold no more meetings until Fall, it was announced.

Mr. Bill Masonic, of Paris, did Tours, in a letter to the club, enclosed, inviting all members to a seven film Scandinavian Countries to be shown at his home on Sunday, May 7th.

The East end of the "triangle" has been planted to 150 Marigolds and 200 Geraniums, the club president announced, and extended an invitation to members to help beautify South Bay by helping out on Friday, May 13th, at 5 p. m. at the triangle with further planting and weeding.

Two guests were present: Mrs. P. E. Goodbread and Mrs. R. W. Owens. Mrs. P. E. Goodbread was the door prize which was a pair of red and yellow Princess Feather plants.

Supervising the work of installing traffic control lights at the "triangle" in South Bay, under the supervision of Mr. Dave Smith, Assistant District Maintenance Engineer for the State of Florida, Palm Beach County District.

Mr. Leathem Martens, of the State's Traffic and Planning Department, designed the traffic light system, and was present to see that the installation conforms to specifications.

The "triangle" is formed by the intersection of U. S. Highway 27 and S. R. 84 in the heart of South Bay. Drivers bound themselves wide open intersection as by the wide open intersection as by the city on U. S. 27. It is hoped that the new traffic lights will stop turns at the intersection, and eliminate a potential traffic hazard.

Florida's Cypress Gardens has more than 2,000 different species of plants which comprise a collection approaching one million plants.

available as house plants virtually the year round, it's important to know the harmful effects of overwatering by keeping them in porous clay pots, which leach out excess water.

The National Bureau of Fire Underwriters has recommended the organization account of the Chief, and the purchase of additional equipment. Strict adherence to the Bureau's requirement will result in lower fire insurance premiums for all city fire fighters, owners, as well as visitors to firemen.

## Athletic Contests Results From South Bay School

The South Bay Little League is still in the process of being organized although the team has started. The team will be at the school grounds in South Bay. The team will be in uniform by the end of this week, according to Mr. Williams, South Bay Little League coach.

The Herald will show pictures of the team and when the uniforms arrive. Boys who want to join the team, and wear the Little League uniform should be trying to try out this week, Coach Williams stated.
